

OWN THE WHEEL WELL

Bartec, building on our years of O.E. Automotive and TPMS Sensor experience, has created a new programmable sensor solution. RITE-SENSOR® is the first programmable solution that delivers a seamless, integrated programming process making the job of the technician easier, faster and more accurate!

The RiteSensor® checks all the rite boxes!

- ☑ Single SKU solution
- ☑ Dual Frequency [315 & 433 MHz]
- ☑ Vehicle coverage always current
- ☑ Programs in less than 3 seconds
- ☑ Rubber valve stem standard
- ☑ Aluminum stem included*
- ☑ Limited lifetime warranty
- ☑ Affordable

**Bartec is:
OE Equipment!
OE Experience!
OE Expertise!**
